Subject: Jack walker appeal of ruling

Once again we oppose the appeal of Mr Jack Walker. We do not want the strip of land which lies 50 feet from our back door zoned commercial. There would be strangers on this property which we would view as a threat to the security of home. This is a community of families. Please do not let him put a business in my back door. This is where I swim and entertain my family. It would be a great invasion of my private life. Mr Walker came to my home last Friday. I told him face to face I did not want him to build anything on that property. I also believe the zoning for commercial would make my residential property value lower and harder to sell if we ever choose to sell.

Thank you,

Tony and Kim Ingram
