Subject: [External]MPC file# 1-D-20-UR

I am a owner of the property located at [8000 Bishop Road, Powell, TN](#). Several years ago our property used to flood into our basement as well as the entire intersection of Bishop Rd and Tate Trotter Road. At times the water was over 12 inches deep. The county then came thru and provided a drainage solution that has stopped the flooding. Since then we have not had an issue with flooding. My concern is that with a new subdivision being placed next to my property, the drainage will be compromised and my home and that intersection will flood again. Please allow my concern to be voiced and addressed at the MPC meeting on 1/9/2020 @ 1:30 as I will not be able to attend.

The MPC file # 1-D-20-UR for 0 Bishop Road/Parcel ID 47 062

Thank you! I believe the gentleman named Glen Holbert that lives adjacent to this property, in the historic Alexander-Bishop house, knows where the cemetery is located if they need any help identifying it.

Mr. Baird,

We currently have a condition on the staff recommendation that the applicant must do an analysis/survey of the property to locate the cemetery, and if something is found then they will have to come back in with a revised concept plan to preserve the cemetery. You should be able to view the staff report tomorrow afternoon. Please let me know if you have any further questions.

I don't see anything in the case file regarding the historic cemetery on this property. What is the plan for this cemetery? Will it be left alone and built around, or will it be relocated?
